
Definition:

An island exhibit space is 400 square feet or larger with aisles on all four sides.

Use of Space:

An island space is separated by the width of an aisle from all neighboring exhibits so full use of the exhibit space is permitted.

Carpet:

The Expo Hall is not carpeted. Exhibit spaces are required to have carpet or some type of floor covering. You are allowed to bring your own or order from the official event contractor. If you need to use the concrete floor to demonstrate your product, please contact Event Management for approval.

Height:

All display fixtures, components including graphics and identification signs are allowed a maximum height of **18ft.** Some venues have low ceiling areas so please check the service manual for any notices for exhibit spaces in a low ceiling location.

Note: Booths 101, 201, 301, 401 are impacted by the low ceiling. Only the back half of your booth would be accessible to hang to 18 feet.

Multi-level or Ceilings:

Exhibitors installing a display with a ceiling or second level must meet all building, fire safety and structural integrity regulations.

All exhibit spaces must adhere to display regulations:

Including ADA, demonstrations, lighting, sound, structural integrity, and storage.
